

HIP V. HYPE is an entrepreneurial group of companies utilising design thinking to create the future city we deserve.

We use our unique perspective on business, process and technical knowledge to collaborate in the making of better, more elegant, more intuitive, more sustainable, spaces, systems, services and experiences. our aim is to enhance quality of life for people, re-connect with nature and address impacts of climate change at scale.

Our operations focus around four pillars:

Development.
Design.
Sustainability.
Research.

KEY INFORMATION

Role: Senior Consultant/ Engineer Better Buildings - FULL TIME
Location: 330 Park Street Collective - Carlton North
Starting: OCT 2018

PURPOSE

Apply excellent technical skills, project management skills and analytical frameworks to support the Better Buildings team design-led advice and action, to drive effective and ambitious integration of environmental, social and economic sustainability in the built environment.

Work across nationally significant residential, mixed-use, education, commercial and precinct-scale projects, leading in the provision of technical analysis, modelling, research and sustainable design advice.

Play an active role in the continual improvement of the quality of analysis and advice provided by our team, maintaining our continued pursuit of genuine impact and positive change within the built environment.

Actively develop and maintain collaborative relationships across the industry, and through these explore and create opportunities to deliver meaningful work with a network of clients and collaborators with aligned values.

EXPERIENCE AND ATTRIBUTES

- _ Deep alignment with Our Values and an active interest in design and sustainability is essential for any of Our People.**
- _ A relevant qualification in Engineering, Sustainable Design or a related discipline is essential.**
- _ An established network of industry collaborators.**
- _ Strong technical skills and knowledge in energy and daylight modelling, passive design, water sensitive design, sustainable servicing strategies, materials, IEQ and embodied emissions is essential.**
- _ Strong knowledge of local building codes and standards.**
- _ Strong software capability such as IES, Energy Plus and FirstRate5.**
- _ Industry accreditations such as Green Star, OPL, LBC.**

EXPERIENCE AND
ATTRIBUTES
(CONTINUED)

- _ Great written and verbal communication skills, financial literacy and a strong capacity to understand and work effectively within the commercial parameters of project delivery.
- _ Ability to think logically, analyse and assess opportunities and risks and identify solutions and outcomes.
- _ A strong understanding of design thinking principles and ability to understand and adopt a design-led approach to problem solving and project management.
- _ Ability to identify opportunities to continuously improve our processes and practices.

TASKS

PROJECT LEADERSHIP

- _ Operate with support from the Better Buildings Lead and Managing Director to lead multiple projects and client relationships, and manage delivery by other team members including Graduate Consultants.

TECHNICAL ANALYSIS & SPECIFICATION

- _ With direction, take a leading role in the delivery of research, analysis and specification across all aspects of high performance buildings including: thermal comfort analysis, daylight modelling, shading studies, Life Cycle Assessment, and key sustainability measures (thermal fabric, building and precinct-scale energy, water, waste, transport).
- _ Manage the delivery of BCA Section J (including NatHERS) compliance and certification processes including Green Star, WELL, One Planet Living and Living Building Challenge.
- _ Oversee and provide quality assurance review of technical analysis and documentation completed by junior team members.

COMMUNICATION OF ADVICE

- _ Report drafting including preparation of Sustainability Management Plans, Sustainable Design Assessment reports and Section J Compliance reports.
- _ Contribute to client presentations and workshop facilitation.

TASKS (CONTINUED)

- _ Lead in providing timely and accurate advice to clients throughout the planning, design, construction and operation of their assets.

ORGANISATIONAL DEVELOPMENT

- _ Support collaboration across HIP V. HYPE's Four Pillars.
- _ Support and mentor junior team members with guidance from Better Buildings Lead and Managing Director.
- _ Assist in the development and refinement of delivery processes and tools.

OPPORTUNITY DEVELOPMENT & INDUSTRY PARTICIPATION

- _ Create and sustain productive relationships with clients and collaborators with aligned business values.
 - _ Lead proposal drafting, project budgeting and resource planning.
 - _ Represent HIP V. HYPE Sustainability through participation in industry events.
-

OUR VALUES

- _ We believe in the power of a collaborative, design led approach.
- _ We believe in building relationships.
- _ We believe in the potential of smart, thoughtful and passionate people who are driven to achieve better.
- _ Our aim is to remain agile and open-minded to facilitate an environment that enables our people to pursue relevant and meaningful purpose driven work.
- _ We will not compromise on our values:
- _ Continuity and Authenticity is everything: say what you mean and mean what you say.
- _ We don't want to be interesting, we want to be good.
- _ We seek work that is meaningful, evidence-based and challenges the status quo - "It's more fun being a pirate than joining the navy".
- _ We acknowledge effort, share success and act with compassion: We collaborate, we don't compete.
- _ We question everything and always seek to understand - WHY.
- _ We don't believe the Hype.
- _ We always seek to be better and to do better.
- _ And importantly, we take our work seriously, not ourselves...!
